PROJECT OUTREACH

“If you want to reach more, you have to reach out!”

How do I increase church attendance?

How do I better influence strong Christian lifestyles?

How do I build more spiritual awareness among the youth?

How do I bring in those who have turned away?

The answer to these questions are clear; **REACH OUT** and get involved with your community! Whether your church is large or small, the key to growth falls within your persistence in reaching out. It has been proven that people will come if they are invited and feel welcomed. So, invite them... show them that you care, reach out and provide them with assistance to ease their struggles. Invite them in for free workshops or training and help those in need with counseling, family assistance, job placement, work skills, health issues and more.

“For even the son of man did not come to be served, but to serve.”
Mark 10:45

Many of today's most successful churches have implemented such programs and are increasing attendance and expanding their facilities at an incredible rate. All over the country, these churches are currently considering either a physical expansion of the building or a ministerial expansion of new outreach programs. Such renovations reflect not only a growth in their church attendance and monetary income, but a revived interest in expanding the scope of the church's vision.

Overall, if you open the facilities to the general public, you have an excellent opportunity to share other benefits of church membership or the Christian life with them. The possibilities are almost limitless, and the members will truly benefit from the programs, both physically and spiritually.

PROJECT OUTREACH

“If you want to reach more, you have to reach out!”

ChurchNet USA, specializes in assisting churches with the planning and implementation of outreach programs along with legal structure, 501c3 tax exemption, funding solutions such as: faith-based grants, corporate sponsorships and more. Some of our top outreach programs that are easy to implement with limited resources include:

1. Healthy Living Support Group
2. Entrepreneurial & Job Search Workshop
3. Youth Programs
4. Cooking Classes
5. Family Life Center

Project Outreach is about helping you to develop and implement the outreach programs that will increase your church membership, help people with their needs, condition the heart to be receptive for spiritual outreach and make it easier to receive grants and financial support to fund these programs.

Key Benefits:

1. Increase Church Attendance
2. Local Business Sponsorship
3. Qualifying for Faith-based Grants

About ChurchNet USA

Founded in 2004 and headquartered in Orlando, FL, ChurchNet USA serves as a “one-stop” resource center for startup, small and mid-size nonprofit organizations, church and outreach ministry groups. At ChurchNet USA, our goal is to help organizations succeed, even after their services are completed. In addition to our church and nonprofit services, we offer free tools and resources to provide ongoing support for every organization. These include: a web directory, development reviews, online webinars, and informational articles and tips; just to name a few. ChurchNet USA is a sub-division of BizCentral USA.
